ONE VISION, ONE LEGACY

American Standard was formed after an amalgamation of two industry leaders in their own rights – American Radiator and Standard Sanitary.

Since its inception in 1875, Standard Sanitary has pioneered many plumbing product improvements including enameled bathtubs, toilets, sinks, electric dishwashers, even adding color to bathroom fixtures. By 1930's, Standard Sanitary was leading the sanitation and plumbing industry.

American Radiator, on the other hand, dominated the heating equipment market and was the largest supplier of heating equipment in the world.

In late 1929, the combination of both the entrepreneurial flair of American Radiator and innovative spirit of Standard Sanitary laid the foundation for what American Standard stands for today.

JOHN B. PIERCE

JOHN PIERCE

FOUNDER

The roots of American Standard's innovation legacy can be traced back to a tiny tinware shop in Ware, Massachusetts, where John B. Pierce, an optimistic entrepreneur, purchased a tinware shop for $2800 in 1872. With determination, a fresh coat of paint and an unwavering vision for the future, Pierce forged the beginning of a proud legacy that has made American Standard one of the most enduring and trusted brands in the industry. Since its humble beginnings, American Standard has led a pivotal role in redefining today's bathrooms by pioneering innovations - making modern bathrooms accessible to all.

DEFINING MOMENTS, REWRITING HISTORIES

1870's

Rise of Public Health

The advancement of sanitation has been important in the history of public health. In 1875, James Arnott and Francis J. Torrance from Ireland founded Standard Manufacturing to make cast-iron water closets, washstands and bathtubs for the growing sanitation and indoor bathroom market.

Clarence Mott Woolley, forms American Radiator Company in 1892.

John Pierce purchases tinwork shop in Massachusetts in 1872. Forms Standard Sanitary in 1899.

AMERICAN RADIATORS

1890's

The Growth of The Modern Bathroom

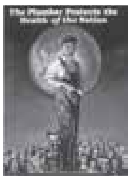
Alongside Standard Manufacturing, two companies producing enameled sanitary products were growing steadily. The first was Dawes & Myler Manufacturing which was founded by ex- Standard Manufacturing staff, Edward L. Dawes and William A. Myler. The other was Ahrens & Ott Manufacturing, set up by Theodore Ahrens and Henry L. Ott. In 1899, all three companies merged to form Standard Sanitary that led the expansion of the bathroom market and made modern bathrooms accessible to all.

Standard
Sanitary

1910's

Expanding The Product Line

In 1913, American Sanitary purchased the Great Western Pottery Company and began producing enameled porcelain products. The company began selling a complete line of cast-iron enameled kitchen sinks in 1917 after a successful launch at the Pittsburgh Annual Exposition.



1930's

Mega Merger Forms One-Stop Shop

While Standard Sanitary dominated the sanitation and plumbing industry, American Radiator, led by Charles Woolley, was the world's largest supplier of heating equipment. In late 1929, both companies merged to form American Radiator & Standard Sanitary Corporation; creating a single source for craftsmen and driving greater demand for heating and plumbing products.

AMERICAN
RADIATOR
&
Standard
Sanitary
CORPORATION

1900's

Cornering The Market

By 1900, Standard Sanitary had become the world's largest supplier of plumbing goods; producing more than 150 bathtubs per day. American bathroom was modernizing with the country devoting resources to public sewage and bathrooms began moving indoors rapidly.

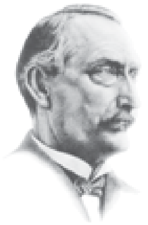
Standard Sanitary's "Royal Albion"

"Standard"
PLUMBING FIXTURES

1880's

The Sanitary Advantage

In 1883, Standard Manufacturing perfected a process to coat pulverized enamel onto hot castings to form a smooth, white surface that was easy-to-clean and impervious to water— preventing corrosion and bacteria from forming and multiplying on the sides of metal tubs.



John C.Reed developed a process he patented to enamel tubs quickly and helped Standard Sanitary rise as the nation's plumbing leader.

1940's

Supporting The War Effort

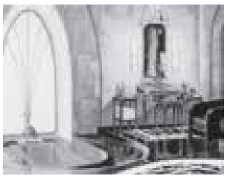
By 1943, American Radiator & Standard Sanitary virtually halted all peacetime production to supply the armed forces with critical parts and munitions including the mold and castings for the B-29 Superfortress bomber. By war's end, the company had produced more than 2.5 million hand grenades and 75 million cast-iron nose pieces for bombs. A shortage of labor and materials in the post war years forced the company to put products on allocation as demand far outpaced available production.

American Radiator & Standard Sanitary advertised hope during wartime production.

1920's

The Bathroom Comes of Age

White has been the color of choice in American bathrooms. It was clean, bright and sanitary. But in 1926, color made its first appearance in bathroom fixtures from Standard Sanitary. Suddenly style entered the bathroom with a new attitude that made it an integral part of home décor.



1950's

Peacetime Boom

The housing industry recovered quickly after WWII as affordable housing was required for millions of returning war veterans. The new suburbia was born, and with it the expansion of plumbing products. In 1951, American Standard had moved into the kitchen; introducing steel sinks, steel walls, base and specialty cabinets, automatic dishwashers and electric food waste disposers.

Popular enameled steel kitchen sink with integrated food disposal system.

American-Standard

1960's

New Products For a Modern World

The sixties was a growth era for American Standard. The company expanded its product offerings, and ventured into new markets and technologies. Innovations included the now ubiquitous "push and pull" faucets, slip-resistant bathtubs, odor-removing Vent-Away toilet systems and remote control drain pop-ups. In 1968, a technological breakthrough in ceramic dish valves was added to American Standard faucets – promising leak-free operation for life.

Years of trouble-free performance were made possible through American Standard's patented ceramic-disc technology and washerless faucets.

1970's

Turbulent Times

By 1971, American Standard sales reached $1.4 billion with 70,000 employees. Despite a turbulent economy that led to a decade of controlled growth and expansion, the company grew worldwide. By 1979, it was operating in more than 20 countries and claimed the title as the world's largest plumbing manufacturer.

Refurbished Radiator Building

1980's

The Go-Go Days

By the eighties, sales reached a record high of $2.7 billion and innovation continued to drive market leadership. The company introduced Americast® in 1987, a game changing material that was lighter than cast-iron and more durable than enameled steel, and the Sensorium, the first tub with electronics that controlled in-home appliances.

Made of three layers, enamel, metal and composite backing, this is no ordinary tub. Americast® is lighter than cast-iron and just as strong, making tub installation easier.

1990's

We Want You to Love Your Bathroom

Americans turned their attention to creating stylized living spaces that offered a sense of comfort, retreat and relaxation. American Standard joined the renaissance by acquiring Porcher, a French-based luxury brand and a German-based faucet brand called JADO. In addition, new suites and product lines were added to attract style-minded consumers.

2000's

Creation of American Standard Brands

American Standard Companies, Inc., the parent company of American Standard announces break up. In 2007, Bain Capital purchased American Standard Global Bath and Kitchen business while Sun Capital bought over American Standard Americas, which led to the creation of American Standard Brands that included the integration of Elijer, Crane Plumbing and Fiat, all Sun Capital companies.

TODAY

Fresh Ideas For a New Generation

In 2013, American Standard joined the LIXIL Group of Japan, one of the world's leading building products companies. With annual revenues exceeding $16 billion, LIXIL is a family of brands with leading market position in windows, doors, exterior curtain walls, and of course kitchen and bathroom products.

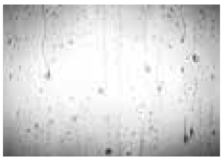
LIXIL

Link to Good Living

Clean is the New Green

Innovation is our top priority at American Standard. Our latest introductions bring new levels of style and performance to our customers and continue to raise the standard of comfortable, beautiful, healthy and convenient living.

DOUBLE VORTEX
Maximum flushing performance, minimum water usage



PROGUARD
Guards against water stains

ECO HANDLE FAUCETS
Provides up to 30% energy savings

GOOD DESIGN AWARD 2014

BATHROOM SOLUTIONS

American Standard has led the way in developing innovative sanitary products and continues to do so. It is this tradition of quality and innovation that spearheads the intelligence behind every American Standard offering.

COMFORT PUSH BUTTON

A larger surface area for ease of use

PROGUARD

Guards against water stains

DOUBLE VORTEX

Maximum flushing performance, minimum water usage

SKIRTED DESIGN

Premium design allows for quick and easy exterior cleaning

RIMLESS

Hygienic and easy to clean

SOFT CLOSING SEAT & COVER

Gentle and quiet closing action

TOP FIXED & QUICK RELEASE

Easy removal for thorough cleaning

EASY LIFT

Unique lever design for lifting the seat cover easily

DUAL FLAPPER

Powerful flushing with minimal noise

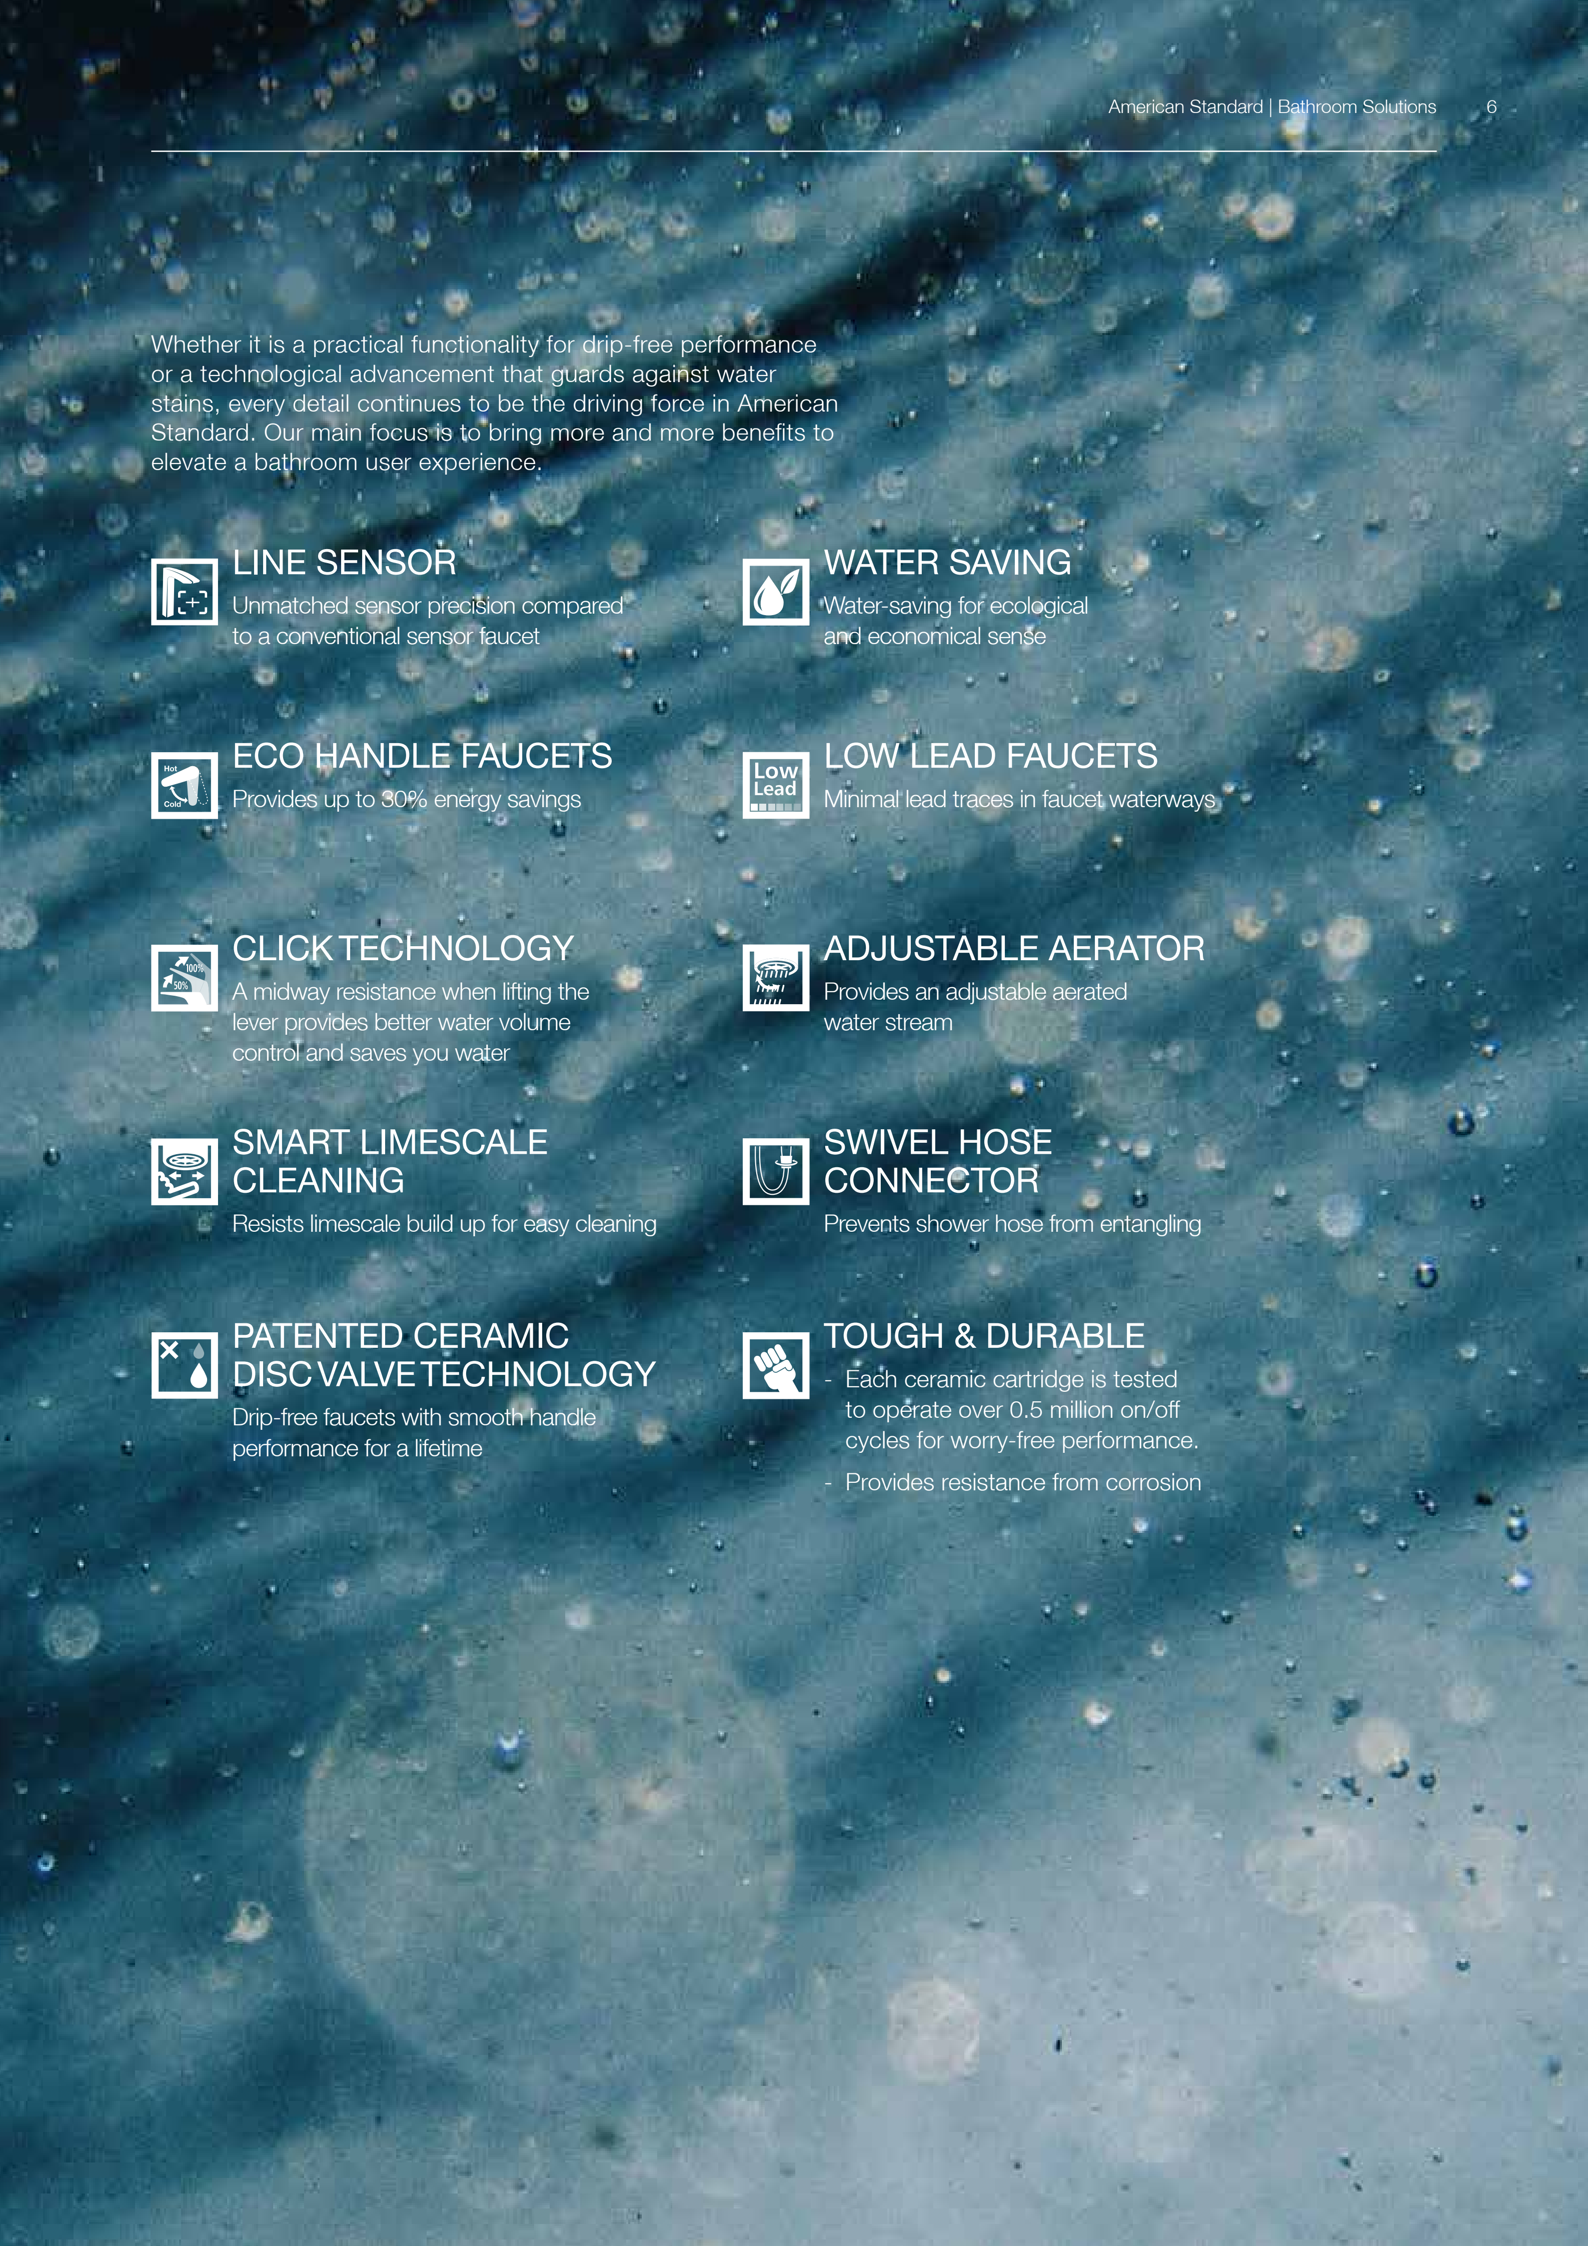
SUPER SERENE

Provides a quiet flush

ANTI BACTERIAL FINISH*

Hygiene protection for the family

Applicable to the push button, seat and cover of Acacia Evolution collection.



Whether it is a practical functionality for drip-free performance or a technological advancement that guards against water stains, every detail continues to be the driving force in American Standard. Our main focus is to bring more and more benefits to elevate a bathroom user experience.

LINE SENSOR

Unmatched sensor precision compared to a conventional sensor faucet

ECO HANDLE FAUCETS

Provides up to 30% energy savings

CLICK TECHNOLOGY

A midway resistance when lifting the lever provides better water volume control and saves you water

SMART LIMESCALE CLEANING

Resists limescale build up for easy cleaning

PATENTED CERAMIC DISC VALVE TECHNOLOGY

Drip-free faucets with smooth handle performance for a lifetime

WATER SAVING

Water-saving for ecological and economical sense

LOW LEAD FAUCETS

Minimal lead traces in faucet waterways

ADJUSTABLE AERATOR

Provides an adjustable aerated water stream

SWIVEL HOSE CONNECTOR

Prevents shower hose from entangling

TOUGH & DURABLE

- Each ceramic cartridge is tested to operate over 0.5 million on/off cycles for worry-free performance.
- Provides resistance from corrosion

CLEAN IS THE NEW GREEN

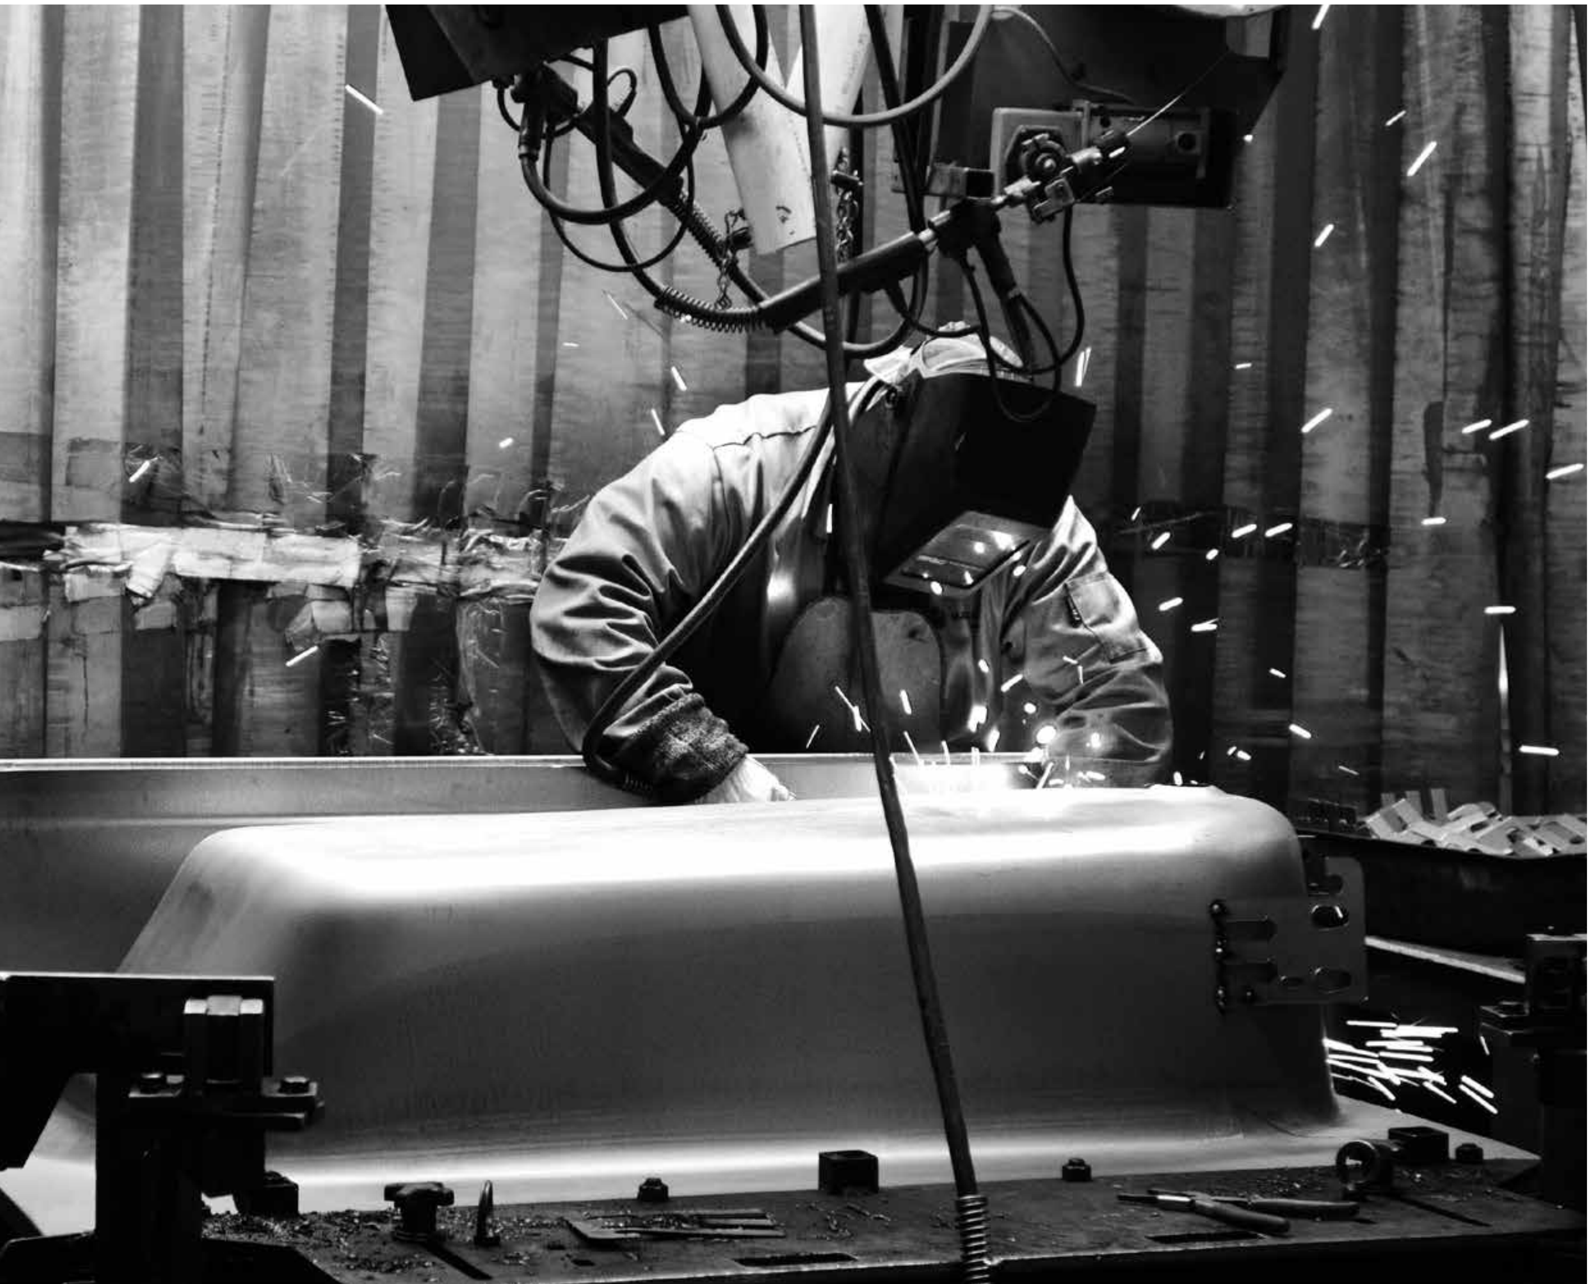
‘Green’ is more than an aspiration at American Standard. Our green efforts are evident in the clean technologies that we place in our products. Each thoughtful innovation is committed to safeguarding our planet.

The problem of water scarcity is a growing one as the world’s population puts mounting demands on limited supplies. Never has it been more pressing to introduce clean technologies that will ensure an ecological balance. By reducing water consumption, minimizing the use of harmful detergents and cutting down on energy use, American Standard products aim to protect our precious planet, so that our future generations are assured of a clean and green environment.

QUANTITATIVE RESEARCH, QUALITY ASSURED

No other single factor in the history of public health is as important as the advancement of sanitation.

At a time when people were first bathing in metal tubs, American Standard perfected a process to coat pulverized enamel onto hot castings, creating an impervious surface that prevented corrosion and bacteria from forming on the metal tubs. This quickly elevated the company to a plumbing leader status.



We also introduced color into bathroom fixtures when white was the norm in American bathrooms, creating stylish plumbing fixtures fit for conversations.

Decades of research go into every single American Standard innovation. From our ubiquitous “push and pull” faucets which offered easier “one-hand” operation, skid-resistant bathtub for better safety, wall-mounted toilets designed to make cleaning under the toilet easier, to our patented breakthrough ceramic disc valve technology for leak-free faucet operations, we have earned the trust of our customers for over a century.

Today, we continue to innovate, introducing energy-saving Eco-handle faucets, water-saving Airnergize showers, powerful Double Vortex flushing, and stain-resistant Proguard technology.

With worldwide presence in over 20 countries, manufacturing and research facilities in Asia and a strong design team, we make it our business to deliver peace of mind to ensure reliable performance every time, anywhere.

DRIVEN BY DESIGN, POWERED BY TECHNOLOGY.

American Standard's dynamic accolade-laden team of in-house designers create award-winning designs, providing offerings that provide not just pleasing aesthetics, but also human-centric functionality.

LYRIC SHOWERHEAD

Enjoy a shower with LYRIC - a multi-function music shower head that takes your showering experience to an auditory level.

The speaker resides outside the water source, providing you with increased audio clarity and can be easily removed to be used indoors and outdoors up to 32 feet away.

reddot design award 2014

ACACIA EVOLUTION BASIN MIXER

Unlike conventional mixers, Acacia Evolution's Eco Handle releases cold water instead of warm water upon lifting the lever, saving up to 30% energy.

The faucet is also equipped with Click Technology - a midway resistance upon lifting the lever that gives you better water volume control and thus saving precious water.

BATHROOM COLLECTIONS

CLASSIC, CONTEMPORARY, MODERN

The bathroom has come of age. From being a mere functional cleansing room, it has evolved into a private haven for the individual. Our Bathroom Collections enable individuals to express their personalities and create their own private sanctuaries.

Classic

With a preference for conservative aesthetics, Classic collections embrace 'established design', quality and elegance. With a healthy respect for tradition and formality, emphasis is often placed on style-longevity.

Contemporary

Robust materials and humanized aesthetics combine to provide simple, valuable solutions for everyday needs. With this style, there is a distinct practicality with a penchant for harmonious design.

Modern

This style amplifies simplicity and clarity, with no need for exaggeration or excessiveness. Intuitive products that are just as easy to use as they are emotionally designed with the latest trends in mind.

From modern and contemporary, to timeless classic designs, you can be sure to find your personalized style at American Standard.

Acacia Evolution

Collection

Evolution itself is in a constant state of change, morphing into more relevant form to adapt to time and space. After a decade of enduring and celebrated success from its Acacia predecessor, Acacia Evolution marks the dawn of a new era. In a time where technology defines the way we interact, work and live, Acacia Evolution is designed to meet these needs. Where design and technology co-exist symbiotically, blurring the lines of form and function.

Milano

Collection

Milano Collection encapsulates the essence and spirit of the arts, culture and designs of Milan. This forms the fundamental concept of the collection. The precise architecture of this ancient city evolves and is deconstructed during the design process. A human-centric and luxurious design is reinvented. Featuring a new level of comfort that exudes softness, while retaining the instinctive intimacy that appeals to us.

Neo Modern

Collection

A collection that represents practical comfort and clever functionality, Neo Modern collection incorporates well-designed functional details. Featuring an easy lift lever on the seat cover, the tank design also shows off a Smart Lid that functions as a commodity holder. Such user-friendly small touches offer unrivalled sensibility and style in the bathroom.

Concept D Shape

Collection

With its playful take on D-shape silhouettes, what comes to mind is an elegant and highly versatile design that will sit easily in any environment. An almost nostalgic collection that pays homage to gently scooped interiors and smooth curves.

Cygnet

Collection

Inspired by the warmth and love of family life, the Cygnet collection displays thoughtful elements designed for family comfort in mind. Apart from soft minimalism, the height of the Cygnet toilet is raised to accommodate the needs of the elderly, pregnant members or the disabled. A perfect choice for families who want the bathroom to be a comfortable and inviting place for all.

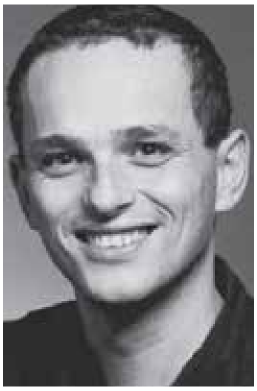
IDS Dynamic

Collection

A statement in straight edged sophistication. Reflecting a trend towards pure minimalism in contemporary architecture, powerful lines and definitive proportions evoke strength, charisma and rationality.

reddot design award

concept award



ACHIM POHL & TOMAS FIEGL

Our Tonic, Moments & IDS Collections earned these famous designers the prestigious Red Dot Product Design Award. The duo aim to create products that are ‘part of a whole’. This means creating designs that are well balanced between form and function, transcending cultural boundaries to be appreciated by all.

La vita
Collection

Natural Delight, the Blossoming of Vitality. Designed by internationally renowned lifestyle designer Ronen Joseph, the La Vita collection made its enticing debut in the cosmopolitan city. The soft bevel-cut edges show off a modern and sensual elegance, inviting one to feel the exclusivity in the collection's harmonious silhouette.

RONEN JOSEPH

Ronen Joseph is an international renowned designer from Italy. His design philosophy is enriched with abundant connotations. He is convinced design is the art of various layers and the perfect integration with advanced technology and fashion.

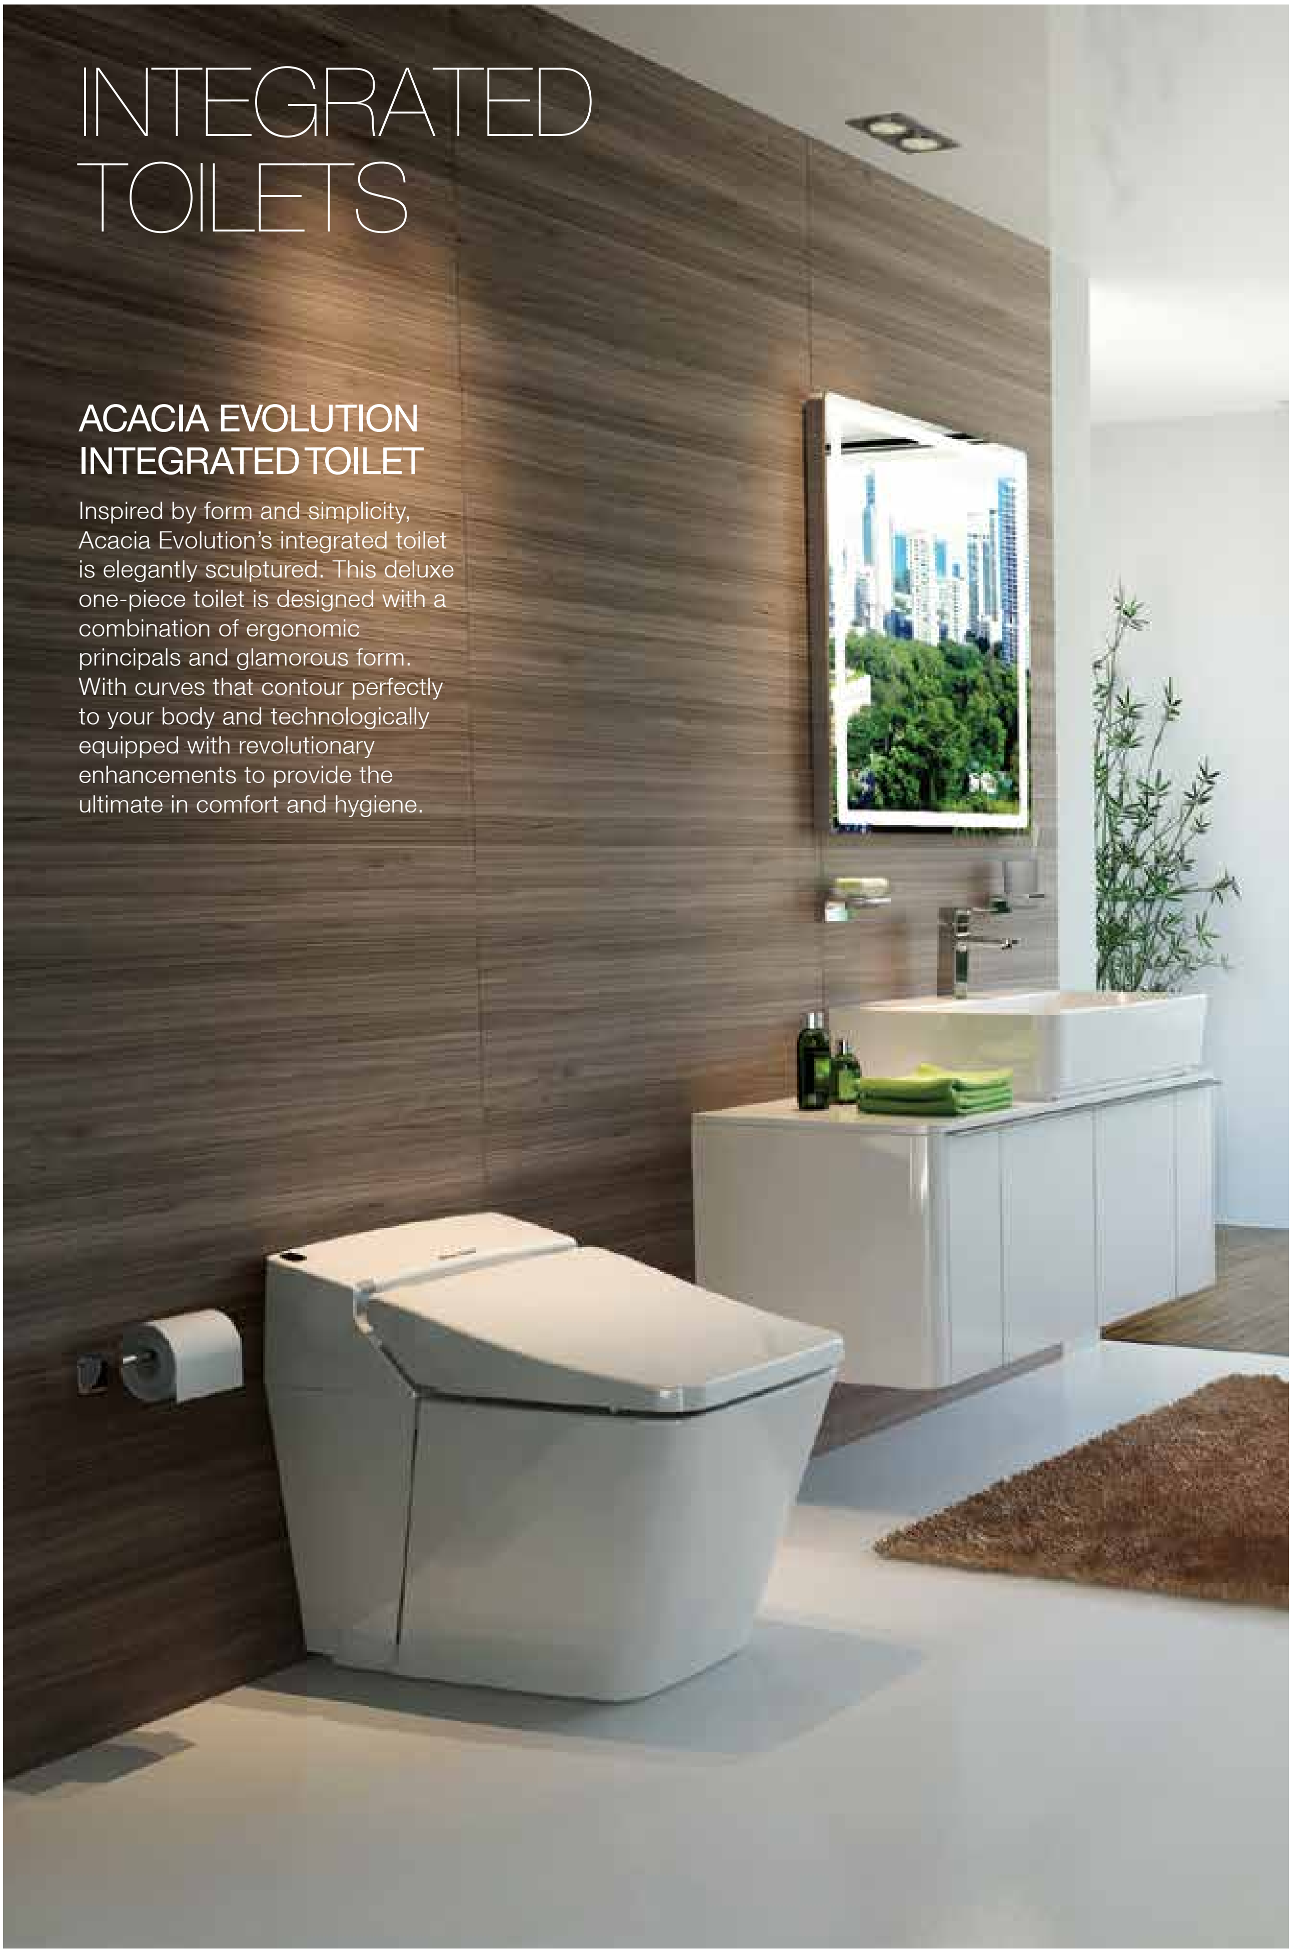
TOILETS & WASHBASINS EXCELLENCE

It is usually the right ceramic choice that will bring out the best in your chosen faucets. This is why we have a comprehensive range of washbasins that will suit every individual style, yet offering the same level of comfort that you deserve. Special attention has gone into every ceramic piece - from ergonomically designed bowls with powerful flushing to low maintenance, space-saving basins for intimate sized bathrooms, we are confident you will find a favorite for your private enclave.



INTEGRATED TOILETS

ACACIA EVOLUTION INTEGRATED TOILET

Inspired by form and simplicity, Acacia Evolution's integrated toilet is elegantly sculptured. This deluxe one-piece toilet is designed with a combination of ergonomic principals and glamorous form. With curves that contour perfectly to your body and technologically equipped with revolutionary enhancements to provide the ultimate in comfort and hygiene.

Acacia Evolution Integrated Toilet (Auto Open-Close Seat and Cover)

Deodorizer

FEATURES AND FUNCTIONS

SIPHON FLUSHING

Cleans the bowl thoroughly with a powerful siphon flushing system

WATER SAVING

Uses only 3.5L for half flush and 5L for full flush, providing you with considerable water savings

AUTOMATIC FLUSH

Motion-activated, hands-free flushing

AUTOMATIC LID

A sensor detects your presence, and automatically opens and closes the lid

SLOW CLOSING SEAT & COVER

Gentle and quiet closing action

DRYER

Computer-memorized settings are adjustable and can be kept at the same settings as previous user’s

INSTANT HEATING SYSTEM

Instant heating system ensures a stable water temperature

HEATED SEAT

Temperature can be easily adjusted for comfort

CUTTING EDGE REMOTE CONTROL

All bidet functions can be operated via a handy remote control

MAIN BODY EMERGENCY BUTTON

Allows you to manually flush the integrated toilet

DUAL NOZZLES

Equipped with dedicated front and rear cleansing nozzles

ANTIBACTERIAL PROTECTION

Anti-bacterial resin on seat & cover, nozzle and remote control ensures hygienic protection

INTEGRATED TOILETS

AEROZEN INTEGRATED TOILET

The AEROZEN, with its dynamic look and tank-less design, pairs with advanced automated cleansing functions to elevate sanitary hygiene for you and your family.

Aerozen Integrated Toilet

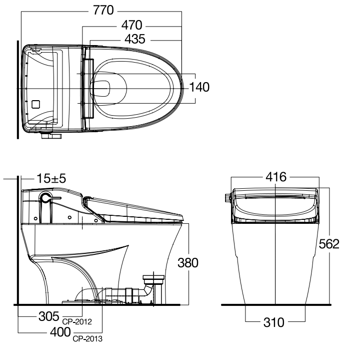
Siphon
305 mm, S-Trap
6 Litres
Elongated Bowl
Posterior, Anterior Cleansing
Auto Nozzle Self Cleaning
Dry Function
Remote Control Operation



FEATURES AND FUNCTIONS

HEATED SEAT

Seat can be heated between 28 - 40°C, with several temperature adjustments. Setting is computer-memorized and is kept at same setting as previous user

ANTI-BACTERIA

Anti-bacteria addictive applied to nozzles, seat & cover and remote control effectively inhibits bacteria breeding.

INFRARED SENSOR

Equipped with infra-red sensor for automated flushing

DUAL NOZZLE WASH

Equipped with dedicated front and rear cleansing nozzles, providing a more thorough and comfortable cleansing experience.

SLOW CLOSING SEAT & COVER

Gentle and quiet closing action

AUTO SELF CLEANING NOZZLE

Nozzle tips are rinsed with water before and after every use

QUICK DETACH COVER

An easy-to-detach seat cover provides for convenient cleaning of hard-to-reach areas

NOZZLE SHUTTER

A nozzle shutter prevents waste materials from getting to the nozzle tips, thus ensuring better hygiene

REMOTE CONTROL

Can either by hung on wall or hand-held for ease of operation

CIRCUIT BREAKER

Power supply will automatically be cut off under unusual situations, helping to conserve energy

AUTO SENSOR FLUSH

Flushes automatically 6 seconds after user leaves toilet seat

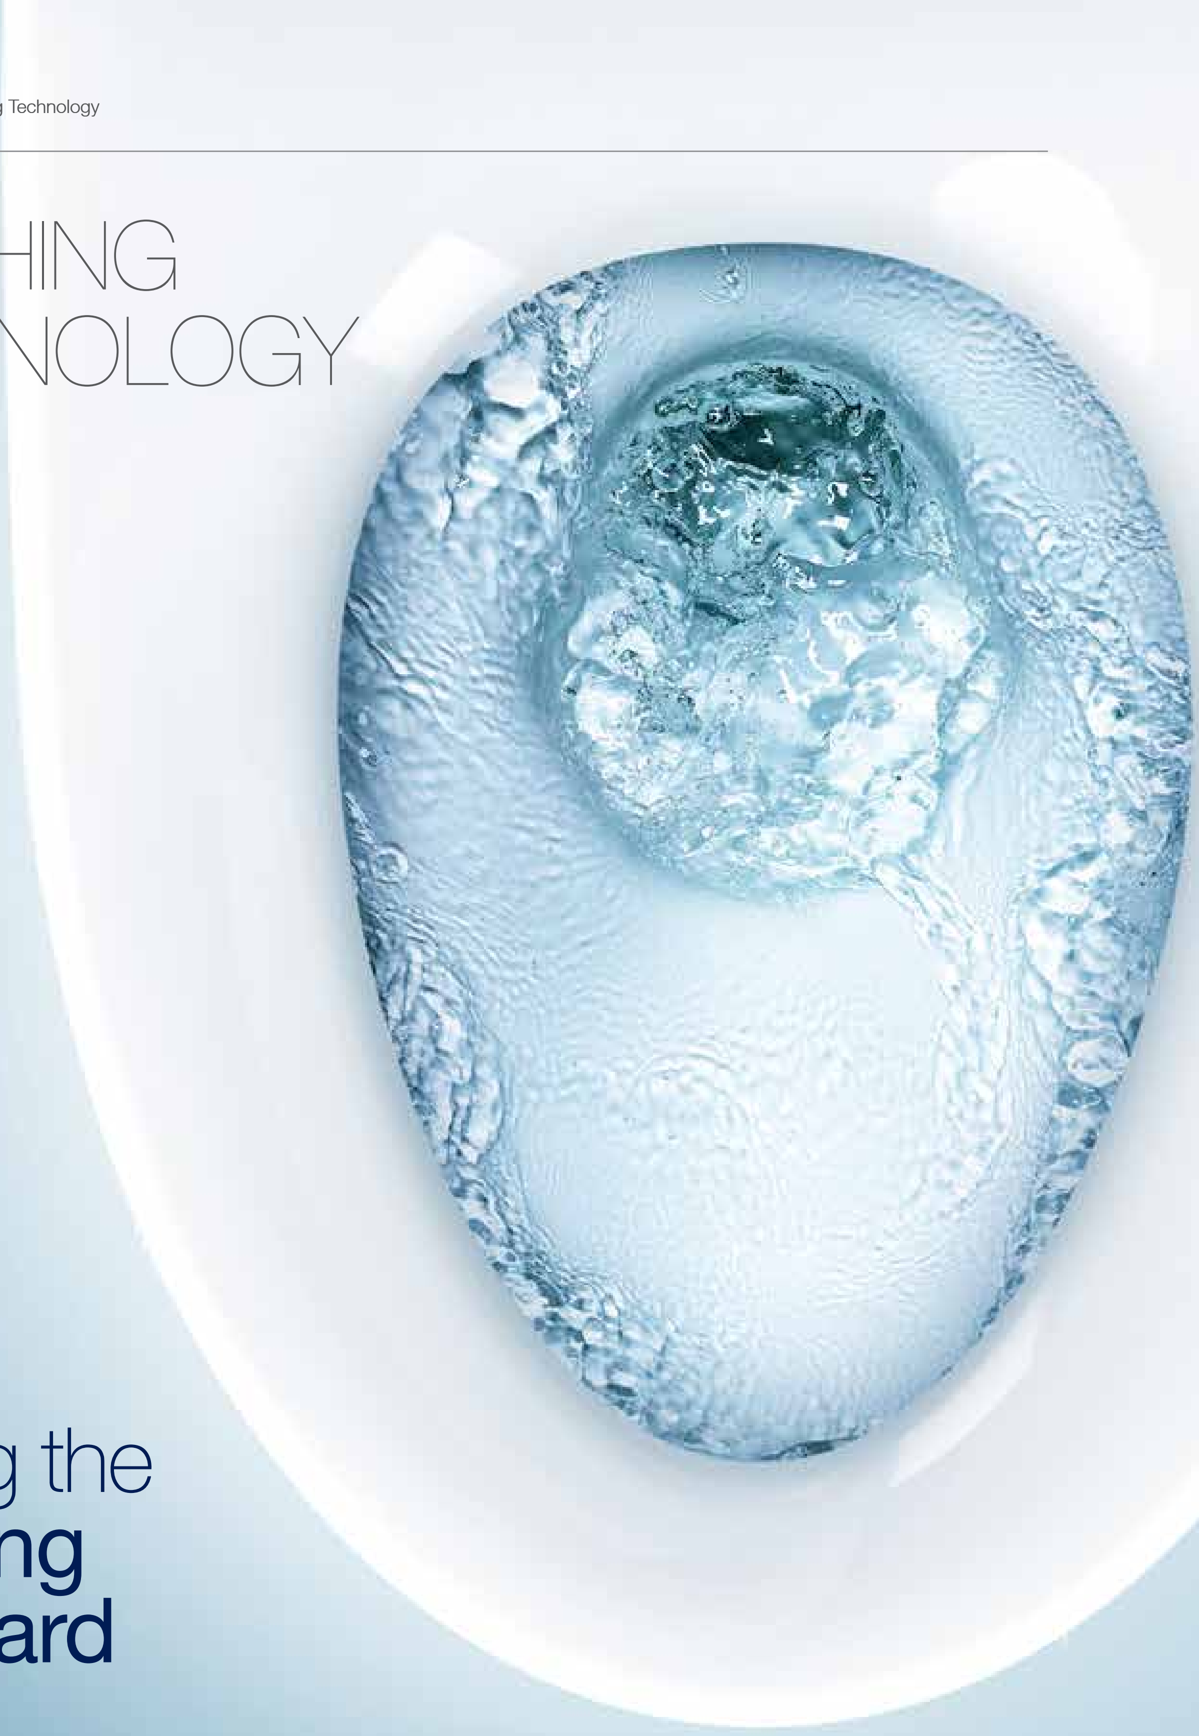
DRYER

Computer-memorized settings are adjustable and can be kept at the same settings as previous user's

POWER SAVING

Under the power saving mode, water heating and seat heating functions will stop, while cleansing and flushing will still operate. Machine will resume to original settings after 8 hrs. Keeping seat cover closed will also save energy

FLUSHING TECHNOLOGY



Raising the **Flushing Standard**

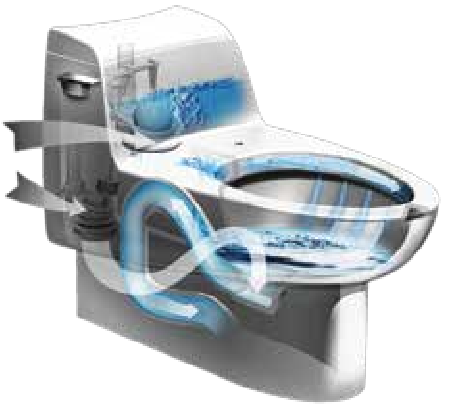
Powered by

DOUBLE VORTEX

2.6/4L

Maximum Flushing Performance, Minimum Water Usage

The design of the bowl propels the water forward and creates a strong flushing momentum.

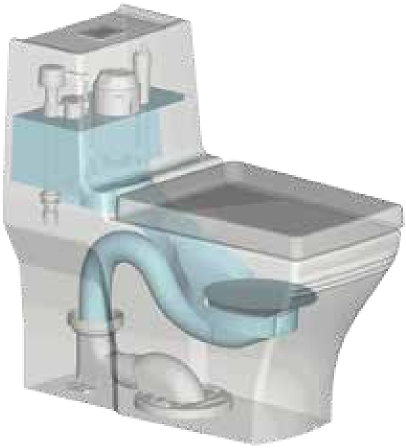


DUAL FLAPPER

Powerful Flushing with Minimal Noise

The Dual Flapper generates excellent siphon effects resulting in a powerful flushing performance. In addition to providing a rim-clean wash solution, the dual flapper is extremely quiet when compared to the normal siphon flush.

**Only for IDS Clear one-piece toilet*



SIPHONMAX

High Flushing Performance for Both Heavy and Light Waste

The trapway of the bowl fills with water from 2 side water channels and initiates a strong siphonic action to evacuate both heavy and light waste.

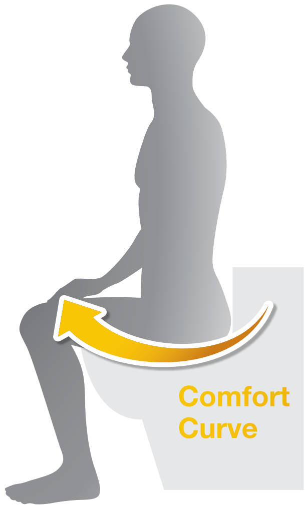
**Only for Neo Modern, Nobile, Milano one-pieces toilets.*

DUAL FLUSH

Conserving water is as important to us as it is to you. After all, the less water you use, the more water you save. Apart from efficient flushing technologies, we have a selection of toilets with Dual Flushing that will help conserve water consumption.

Experience Your Comfort Zone Here.

INTIMATELY ERGONOMIC, INNOVATIVELY CRAFTED.

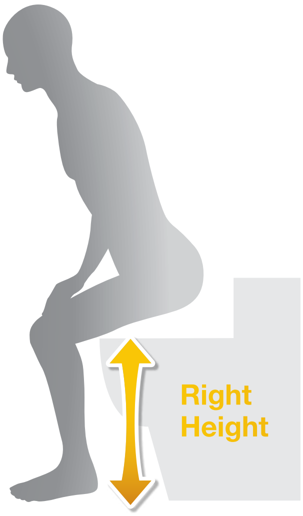


COMFORT CURVE SEAT

Ergonomic Seat Design

Our Comfort Curve Seat ensures an ergonomic fit that comfortably contours to your body.

*Available in Acacia Evolution & Milano Collection



RIGHT HEIGHT

Makes Getting Up Much Easier

Easy to get on and off, especially for the elderly, pregnant and disabled.

*Available in Cygnet Collection

COMFORT OF MIND

Anti-bacterial Finish

American Standard is the first in the industry to meet the Japan Industrial Standard (JIS Z 2801:2010) for this anti-bacterial technology on the push button. This technology is also applied on the seat and cover to provide a more hygienic environment.

*Available in Acacia Evolution Collection

FAUCETS & SHOWERING EXCELLENCE

What is your ideal shower like? Everyone has different preferences. We take your cleansing preferences seriously. We envision shower encounters to be more than just a cleansing routine. That is why we combine thoughtful innovations with a variety of design lines to provide you with reliable performance. Wash your worries away and indulge in the perfect shower.

COMMERCIAL

Commercial buildings, hotels, public buildings all over the world are looking for sustainable and well-designed solutions in their premises. Our Line Sensor faucets, for example, offer unmatched sensor precision compared to a conventional sensor faucet. Such sustainable efforts can only come with dedicated research and development, adding an ecological care from American Standard to well-known addresses.

ACCESSORIES

Accessories for the wash area, shower add that distinctive touch to your bathroom and complete the lived-in feel of a warm, inviting environment. Find toothbrush tumblers, robe hooks, towel rings, shelves, soap dishes, tissue holders to match your selected American Standard fittings and wares. Pair them with matching collections, or go out-of-the-box and adopt a mix-and-match look to distinguish your own style.
